leaders in the crowd as they left the City Hall.

"Never was there a more important obligation on the part of a government body," said H. V. Perkins, of 2407 Border Avenue. "But the will of the people will prevail. That dump must be closed at once."

The County Health Department is making weekly inspections of the dump, it was said, and admitted the presence of the rats on the private dump.

PRIVATE RATS

The officials did not say what was keeping the "private" rats from traveling to the nearby City dump. There are "few if any" rats on the city property, Stevens said he was told by the county officials.

Addressing the Council, Robert

William Carlson, president of the Knolls Homeowners Association, said: "We appear here not to show that our digestive systems are disorganized but to request that the City level, clean up and close the city dump as it is a menace to health, attracting flies and insects, and giving off an unpleasant odor. It is a menace to the safety of our children, who tend to explore the area in which exists an oil sump hole; and it is unsightly in appearance. We would like the City Council to take action on this tonight. Torrance is expanding and if it expands into the city dump, it is the duty of the City of Torrance and not to insult them."

Del Amo declared: "I have lived here before that land was a city dump. They started using it as a dump after 1933. I think it's a menace. My child used to go down there and shoot rats. I have seen the big rats in my garage and traced them back to the dump. The flies are terrible. If there would be an epidemic here, I would blame the Torrance City Council."

H. R. Watson, 2427 Border Ave.: "The flies are terrible. We spray our house twice a day and it doesn't do any good at all. Let's get together and try to do something about it."

Robert Greer, 2443 Border Ave.: "We don't want to fight about it. We want to get the dump cleaned up. It's a menace to the safety of our children. My own son, 5 years old has been down there, no matter how we try to keep him away."

Mrs. Belya Brase, 2435 Border Ave., said: "Those big, green flies are just terrible. We've lived here since 1945 and have never before had them as bad as this year."
